

INSTRUCTION MANUAL

Bluetooth Amplifier Module

The unit has been certified CE. It is prohibited to make any changes to the unit. They would invalidate the CE certificate and their guarantee!

NOTE: To make sure that the unit will function normally, it must be used in rooms with a temperature between 5°C/41°F and 35°C/95°F.

Electric products must not be put into household waste. Please bring them to a recycling centre. Ask your local authorities or your dealer about the way to proceed. The specifications are typical. The actual values can slightly change from one unit to the other. Specifications can be changed without prior notice.

Do not attempt to make any repairs yourself. This would invalidate your warranty. Do not make any changes to the unit. This would also invalidate your warranty. The warranty is not applicable in case of accidents or damages caused by inappropriate use or disrespect of the warnings contained in this manual. Power Dynamics cannot be held responsible for personal injuries caused by a disrespect of the safety recommendations and warnings. This is also applicable to all damages in whatever form.

UNPACKING INSTRUCTION

CAUTION! Immediately upon receiving the product, carefully unpack the carton, check the contents to ensure that all parts are present, and have been received in good condition. Notify the shipper immediately and retain packing material for inspection if any parts appear damage from shipping or the package itself shows signs of mishandling. Save the package and all packing materials. In the event that the product must be returned to the factory, it is important that the product be returned in the original factory box and packing.

If the device has been exposed to drastic temperature fluctuation (e.g. after transportation), do not switch it on immediately. The arising condensation water might damage your device. Leave the device switched off until it has reached room temperature.

POWERSUPPLY

On the label on the backside of the product is indicated on this type of power supply must be connected. Check that the mains voltage corresponds to this, all other voltages than specified, the light effect can be irreparably damaged. The product must also be directly connected to the mains and may be used. No dimmer or adjustable power supply.

Always connect the device to a protected circuit (fuse).

INSTALLATION

1. Connect your speakers correctly with the speaker output terminal of the Bluetooth amplifier module. For the left speaker, make sure to connect with the left 2 slots of the output terminal. For the right speaker, the right 2 slots should be used.
2. Only use the supplied adapter to connect the module with the mains supply. The adapter can be inserted in the designated slot.
3. Enable the Bluetooth function on your device (smartphone, tablet, etc.) containing the music you want to play. Search for possible Bluetooth connections and select "BT" to make a connection. If a password is required, enter "1234".

Features

- Use 100-240V AC to 15V DC adapter(included).
- Drive one pair of 8Ω stereo speakers
- Transmitting range up to 10 meters.

Rated power	2x15W(RMS)
Output impedance	8 ohms
Operating Voltage	100-240V AC to 15V DC adapter(included).
Frequency response	20HZ-20KHZ
THD	0.03%
Bluetooth transmitting range	10m
Dimensions	85x45x23mm
